Star Hotel and Leisure Solutions

Back Office/ Invoices / A4 Laser Replacement: The TSP800II is a unique and versatile thermal printer capable of printing on wider than average media up to 112mm wide. Combined with a unique A4 raster driver capable of scaling an A4 image onto 112mm wide paper, the TSP800II can be integrated as a cost effective receipt, label or kiosk printer or an easy-to-use and compact alternative to standard A4 invoice or report printers with significant paper and consumables cost savings. USB, LAN, and CloudPRNT versions available.

POS Receipt Printer / Kitchen Order Printer: The mC-Print3 is compact, versatile 80mm receipt printer ideal for businesses operating traditional PC POS systems as well as those migrating to tablet and web-based POS with LAN, USB, Direct Lightning with SteadyLAN™, Bluetooth and Cloud. Front feed and front paper loading with an IPX2 rated splash-proof design, the mC-Print3 ticks all the boxes for today's expectations in kitchens, bars and other demanding hospitality environments including integration into self-service kiosks. The MCW10 wireless LAN module is compatible with various models in the mC-Print series.

POS Solution / Gym and Spa: The mPOP is a unique combined receipt printer and cash drawer, simple and elegant, for use with Apple, Android or Windows tablets or desktop PC's. At just 10cm high and 30cm wide, the mPOP™ is easily transportable and offers a contemporary alternative to a traditional cash register or EPOS system. The mPOP can be easily secured on any counter top or can be fixed under the counter. Secure tablet stands available.

Restaurant Receipt Printer: The TSP100 is Star's best selling printer series worldwide and combines affordability, innovative design and the very latest printing software. The **TSP100IIU+** and **TSP100III** Series are available with fixed interfaces including USB, LAN, Bluetooth and WLAN. The **TSP100IV** is available with USB and LAN interface with direct Data & Charge for Android tablets as well as Star's CloudPRNT technology for customer receipts and remote kitchen orders. Accessories include kitchen buzzer, splash proof cover and wall mount. Furthermore, the TSP100IV is compatible with MCW10 wireless LAN module.

Pos Receipt Printer / Kitchen Order Printer: The TSP650II combines high print quality and simple set up with Star's renowned reliability – all at great value. Fast 300mm/second thermal receipt printer offering plug-in interfaces for a range of connection options for traditional POS as well as Tablet and Web and Cloud based systems including USB, LAN. TSP654II HI X offers Cloud order printing directly from web sites and on-line ordering systems. Accessories include kitchen buzzer and splash-proof cover

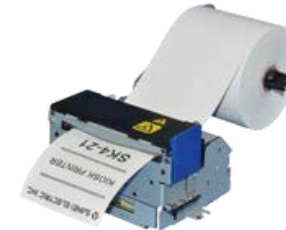

Table Side Receipt Printer / Delivery Label Printer: The SM-T300i is a rugged portable Bluetooth receipt and label printer offering high connectivity and functionality at minimal cost. The SM-T300i is compatible with Apple™, Android™ and Windows™ devices. Dust protected and splash-proof resistant design (IP54 certified), with a 1.5m drop test and long battery life, the SM-T300i is the perfect solution for receipt and label printing in-store or for deliveries.

Kitchen Order Printer: The SP700: fast, easy-to-use, dot matrix kitchen printer ideal for warmer and more humid kitchen environments. Vertical or horizontal printing with wall mount bracket available. Splash resistant and easy-clean design along with options such as red / black printing and integrated buzzer alarm for bars or kitchens. Available with USB, LAN, Bluetooth and CloudPRNT™ connectivity for printing orders from on-line ordering systems

Poolside, Bar, Terrace: The SM-L200 2" / 58mm and SM-S230i Bluetooth mobile receipt and label printers are super-compact and provide fast, simple connection to Apple iOS, Android, Linux and Windows Mobile devices. SM-L200 is simple to operate with micro USB charging and can connect using BLE to iOS devices without the need for traditional pairing. They can also print labels for customer orders and deliveries. Optional charging cradle available.

Self check-in / Car Park Kiosk:The Sanei Range Available in 2", 3" and 4" widths, the Sanei range of barcode, ticket, receipt and label kiosk mechanisms offer fast, high quality 203 dpi printing at speeds up to 250 mm/second for kiosks with limited space. Sanei kiosk printers are low profile and ultra lightweight with flexible mounting options including vertical orientation 90° position for the SK1-211 and SK1-311 models for the thinnest of vertical footprints matching today's latest generation of slimline kiosks.

Receipt Printer / Order Printer / Food Labelling: The TSP700II is a unique and versatile thermal printer, its compact and versatile design means the TSP700II can also be mounted vertically in a kiosk environment for unattended receipt or ticket printing with an optional flashing paper exit guide. USB, LAN and CloudPRNT™ versions available for orders and labels printed from a central database. Splash proof cover and integrated kitchen buzzer available.

CloudPRNT/ Room Service: Star's CloudPRNT technology is now available across Star's thermal receipt, ticket and label printers and matrix kitchen printers providing the largest range of multi-platform remote cloud receipt printers and restaurant on-line order printers available today. By offering online purchasing options, retail stores and restaurants are able to grow their business to expand to a larger market. Using CloudPRNT, online ordering systems have a new and easier solution to offer businesses, allowing them to seamlessly integrate online purchasing into their stores.

Food Labelling / Kitchen Orders: Star's TSP654IISK is a cost effective, eco friendly direct thermal linerless label printer designed for ideal for hospitality labelling. The TSP654IISK is capable of printing repositionable food and allergy labels, food orders and bag seals as well as product labels for hospitality retail. Repositionable thermal labels can stick to virtually any surface, and can be removed easily and reapplied leaving behind no residue.

Food Labelling: The mC-Label is ideal for kitchen, allergy labelling and more. Compatible with strong adhesive linerless labels and a wide range of paper types and paper widths, whilst also featuring extensive communication support: USB-C, wired LAN, Bluetooth®, and wireless LAN, and CloudPRNT. The mC-Label3 is equipped with a paper taken sensor that prints the next label after the printed label is taken. It is designed to meet IP22. Ideal for use in kitchens.

mUnite Tablet Stands: Star Micronics is proud to offer both function and style with its commercial grade mUnite POS solution stands, built to accompany the Star's POS printer range. Easy to set up, our mUnite stands are suitable for a wide range of printing solutions for hospitality and visitor management, such as food ordering and self check in at gyms, hotels and more. The durable steel stands are easy to set up and are available in either black or white to match existing POS systems. The mUnite stands maintain a clean design while hiding all the cables that keep devices connected, routing power supplies under the counter to recapture counter space.
