Star Solutions for Retail

POS Receipt Printer: The mC-Print2 is compact, versatile front feed 58mm receipt printer with up to 5 interfaces including LAN, USB, Direct Lightning USB Connection with SteadyLAN™ for speed and reliable connectivity, Bluetooth and Cloud for traditional, tablet, web or Cloud POS. The printer also offers hub functionality for adding customer display and scanner, and is capable of printing high quality logos, barcodes and graphics. The MCW10 wireless LAN module is compatible with various models of the mC-Print series.

POS Receipt Printer: The mC-Print3 is compact, versatile 80mm receipt printer ideal for businesses operating traditional PC POS systems as well as those migrating to tablet and web-based POS with LAN, USB, Direct Lightning with SteadyLAN™, Bluetooth and Cloud for shop floor printing. The mC-Print3 also offers high resolution printing for easily changeable logos, barcodes, vouchers and coupons on receipts. The MCW10 wireless LAN module is compatible with various models of the mC-Print series.

POS Solution: The mPOP is a unique combined Bluetooth / USB receipt printer and cash drawer, simple and elegant, for use with Apple, Android or Windows tablets or desktop PC's. At just 10cm high and 30cm wide, the mPOP™ is easily transportable and offers a contemporary alternative to a traditional cash register or EPOS system. Ideal for smaller retailers and SMEs with tablet connectivity, The mPOP can be easily secured on any counter top or can be fixed under the counter. Secure tablet stands available.

POS Receipt Printer : The TSP100 series is Star's best selling printer worldwide. The TSP100III/IV Series is available for traditional or tablet POS with USB, Direct Lightning USB, LAN, WLAN and Bluetooth models. FuturePRNT™ software included simplifies set-up and enables hassle-free addition of logos and receipt design features. Additionally the printer offers reliable Windows connectivity for fixed checkout and tablet connectivity for the shop floor. Furthermore, the TSP100IV is compatible with MCW10 and features Star CloudPRNT capabilities.

POS Receipt Printer: The TSP650II combines high print quality and simple set up with Star's renowned reliability – all at great value. Fast 300mm/second thermal receipt printer offering plug-in interfaces for a range of connection options for traditional POS as well as Tablet and Web and Cloud based systems including USB, LAN, Star WebPRNT and CloudPRNT. High quality 203 dpi print quality with barcode capability including 2D for receipts and coupons.

POS receipt / label printer: The TSP700II is a versatile direct thermal printer capable of fast receipt throughput at the check-out as well as being able to print on thicker ticket stock for high quality coupons, vouchers and appointment cards as well as fixed length labels for shelf edge, click and collect and customer returns. USB, LAN and CloudPRNT™ versions available for orders and labels printed from a central database. The TSP700II can also be integrated into self-service kiosks and self-checkout solutions.

mUnite Tablet Stands: Star Micronics is proud to offer both function and style with its commercial grade mUnite POS solution stands, built to accompany the Star's POS printer range. Easy to set up, our mUnite stands are suitable for a wide range of printing solutions for queue management, customer service, customer ordering and more. The durable steel stands are easy to set up and are available in either black or white to match existing POS systems. The mUnite stands maintain a clean design while hiding all the cables that keep devices connected, routing power supplies under the counter to recapture counter space.

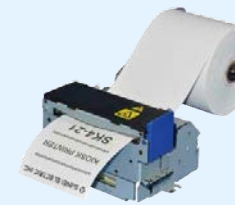

Delivery Label Printer: The SM-T300i is a rugged portable Bluetooth receipt and label printer offering high connectivity and functionality at minimal cost. The SM-T300i is compatible with Apple™, Android™ and Windows™ devices. Easily portable and dust protected, with a 1.5m drop test and long battery life, the SM-T300i is the perfect solution for receipt and label printing in-store, for deliveries or retail warehouses.

Warehouse Printer: The SM-L200 2" / 58mm bluetooth mobile receipt and label printer is super-compact and provide fast, simple connection to Apple iOS, Android, Linux and Windows Mobile devices. Featuring a long battery life and ease of portability, the SM-L200 is perfect for busy retail warehouses. It is simple to operate with micro USB charging and can connect using BLE to iOS devices without the need for traditional pairing. It can also print traditional or linerless labels for customer orders and deliveries.

Back Office End of Day Reporting / A4 Laser Replacement: The TSP800II is a unique and versatile thermal printer capable of printing on wider than average media up to 112mm wide. Combined with a unique A4 raster driver capable of scaling an A4 image onto 112mm wide paper, the TSP800II can be integrated as a cost effective receipt, label or kiosk printer or an easy-to-use and compact alternative to standard A4 invoice or report printers with significant paper and consumables cost savings. USB, LAN, and CloudPRNT versions available.

Self Ordering/Car Park Kiosk: The Sanei Range Available in 2", 3" and 4" widths, the Sanei range of barcode, ticket, receipt and label kiosk mechanisms offer fast, high quality 203 dpi printing at speeds up to 250 mm/second for kiosks with limited space. Sanei kiosk printers are low profile and ultra lightweight with flexible mounting options including vertical orientation 90° position for the SK1-211 and SK1-311 models for the thinnest of vertical footprints matching today's latest generation of slimline kiosks, ideal for carpark and retail.

Pharmacy Printer: The SP298 is a compact, robust and reliable matrix slip printer ideal for printing cut sheet media such as branded multi-part forms, cheques and prescriptions. The SP298 features a high quality print head for printing graphics and special characters as well as AutoSide Loading™ for correct positioning and alignment of forms. At only 180mm wide x 190mm deep, the SP298 provides a compact alternative to bulky desk top printers at the Point of Sale in retail or pharmacies.

Product / Deli / Warehouse / Pharmacy / Customer returns labelling: The mC-Label is ideal for a wide variety of retail labelling applications. Compatible with strong adhesive linerless labels as well as die cut labels and a wide range of label types and widths, whilst also featuring extensive communication: USB-C, LAN, Bluetooth, Wireless LAN and CloudPRNT. The mC-Label3 is equipped with a Paper Taken Sensor which prints the next label only when the first label is taken. One Touch Label function can print up to 3 stored label designs with the press of a button.

Versatile cash drawer series: With a range of cash drawers with a variety of features and price points, Star Micronics is proud to offer cash drawers for any budget or application. Whether you're looking for the smallest possible cash drawer, or a robust cash drawer for a high volume of cash transactions, Star Micronics has the cash register drawer you need.
